PLAY WITH LIGHT

W160 SOLAR CAROUSEL KIT

This is an exciting and fun way to experience the power of the sun. A solar cell supplies electricity for a small motor. To the delight of everyone, the carousel begins to turn once put in the sun or under a lamp. Kit includes three pocket dolls which easily bend to be seated upon the swings. Kit includes everything needed for assembly including instructions. 13 1/2" diameter. To build: ages 9 and up. To play: ages 4 and up.

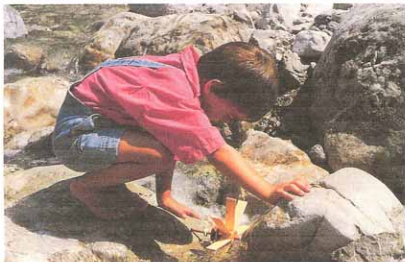

PLAY WITH WATER

W100 DOUBLE WHEEL

PADDLE BOAT KIT

A water wheel boat kit requiring only simple assembly before yielding infinite pleasure and eye-opening discovery. Once sea-worthy the paddle boat will make its way upstream demonstrating how the power created by the opposing force of the water will turn the water wheels which in turn winds up the reel of nylon line upon the axle as the boat makes its way to the end of the hand-held line. On a lake the boat can also be pulled behind a boat. Kit includes everything necessary for assembly including instructions and 32' string. 11" x 5" x 3/8" wide. To build: ages 8 and up. To play: ages 6 and up.

W101 WATER WHEEL KIT

Easy to take along on hikes in a child's backpack and fast to put together. Placed on a suitable rock or between branches, it will capture the flowing water turning the wheel. Really neat! 8 1/2" diameter. Ages 5 and up.
